

RAC Telematics

Plan with geo-fencing

Light up your logistics with geo-fencing

RAC Telematics allows you to add a Point of Interest tailored to your business through your customisable portal. You can set dates and times on a geo-fence, receive a range of reports and completely bespoke it to the requirements of your business.

Business planning with geo-fencing enables you to:

- › Provide visibility of your Points of Interest
- › Receive curfew alerts on unauthorised vehicle movements
- › Plan upcoming work with convenient visual references by identifying the closest vehicle to a Point of Interest
- › Identify when vehicles are entering or leaving a Point of Interest
- › Assist with driver time sheet verification

Manage time and resources more efficiently by planning your routes and highlighting destinations with our geo-fencing functionality.

Another reason to choose RAC Telematics.
