(c) a description of any systematic or significant problems that occur frequently and lead to disputes between consumers and traders of which the ADR entity has become aware due to its operations as an ADR entity;

Condition of vehicle – fault with vehicle after purchase

Condition of vehicle – not prepared to RAC standards

- (d) any recommendations the ADR entity may have as to how the problems referred to in paragraph (c) could be avoided or resolved in future, in order to raise traders' standards and to facilitate the exchange of information and best practices;

All RAC approved dealers are audited six times per year. During these audits, our engineer will check the condition of vehicles that have been prepared for sale to ensure they meet the RAC standards. If any issues are found, these are highlighted to the dealer immediately for them to rectify this prior to the sale of the vehicle.

Where we receive a complaint about the condition of vehicle and the dealer has not prepared the vehicle to RAC standards, a recommendation will be issued to the dealer to resolve the dispute to the consumer's satisfaction. The approved dealer will then be monitored closely going forward.

Where we receive a complaint about a fault with the vehicle after purchase and we determine the fault was inherent at the point of sale, a recommendation will be issued to the dealer in order to resolve the dispute to the customer's satisfaction. The dealer will then be monitored closely going forward.

If we receive more than one complaint for the same dealer, additional checks are implemented, and additional support is provided to the dealer to bring them up to the correct standards. A full internal review into their suitability as an RAC dealer is also undertaken. Our aim is to support the dealers to bring them up to our standards, but where this isn't possible, the dealer would be removed from our network.
